

STAESA ORPHANAGE CONSTRUCTION:

STAESA's orphanage construction project is a social upliftment (Providing shelter, food, clothing and basic education) and development initiative (skills training and poverty alleviation project) to orphans, street kids, needy children and disable children. Our main focal area is the provision of superior care to those children who have been orphaned or require alternative care due to abuse, neglect, abandonment and children that are affected or infected by HIV and AIDS or other ill circumstances. This is a very huge project and we need your help now and be our future partner.

We are presently constructing a shelter to accommodate 60 to 70 kids (orphans, street kids, needy children and disable children) between the ages of 1 day old to 18 years of age. The project, when completed will also provide free basic education for the children in the community and its surrounding villages, Children's public library, recreational centre, Youth training centre, centre to help abuse women and create jobs for folks in the community. The project is located in the community call Adafienu. The catchment area of the project includes, Denu/Aflao and all the villages along the coast in the Volta Region. Adafienu is about 3 hours drive from the capital city of Ghana Accra and it's a very poor community with teenage pregnancy, HIV/AIDS pandemic and other illness prevailing. The problem also spread to other surrounding villages and our hope is to bring relief to the communities by building an orphanage to house the children.

We aim to provide free basic education, reduce unemployment, create jobs, reduce child abuse, teenage pregnancy and child neglect within our surrounding communities by promoting family values.

To provide superior care to children who have been orphaned or require alternative care due to abuse, neglect, abandonment and children that have been affected or infected by HIV & AIDS or other ill circumstances, thus creating a loving and attentive environment that will allow children to develop as well balanced and wholesome individuals, who are capable of a worthy contribution to society.

Our primary objective is to take care of children, from birth to 18 years of age: Spiritually, Physically, Emotionally, Psychologically, Educationally & Financially.

STAESA as the initiators of this project became aware of an increase in circumstances of abuse and neglect involving children in the community of Ghana in general. We chose Adafienu because of the following reasons - poverty rate, hub of social problems, unemployment, HIV/AIDS pandemic, Child abuse, Child labour and high rate of school drop outs. This community and its surrounding villages are very poor hence we felt the need to provide a service which would help decrease or alleviate the strains on the social services, as well as on the victims and their families. The project when completed we will be a total help the kids in Ghana.

The Directorship has appointed a steering committee, which is responsible for the governance of the Construction. They need to ensure that the criteria set by the department of Social Services and Welfare is strictly adhered to. They are responsible of the attainment of sponsorship, fundraising and marketing activities.

Short to medium term plan

Since there is a dire need for children to be taken care of in Ghana, the Dept of Social Services has recommended that we get the project completed on time to accommodate a minimum of 60 to 70 children for 2013/2014. The Construction project has already started but really needs financial help to be able to meet the deadline.

HOW YOU CAN MAKE A DIFFERENCE

Donations & Sponsorships – (Any and Everything.....Every little bit helps)

- Referrals – (Tell your friends, colleagues & family about us)
- Fund Raising Project/s – (Please contact Rev. Simon 0027 73 729 2944)

STAESA already have the kids in the community awaiting the construction to be completed and then move into the accommodation. Meanwhile you can help these kids with their needs. The Children at the moment are with foster parents.
